Guardian Telecom Ltd. is known as a world leader in building rugged, safe, reliable telecommunication devices and solutions used in harsh environments, extreme elements, critical infrastructure, and safety-critical and mission-critical applications worldwide.

In Canada, Impact Technical Products, Inc is proud to represent three of Guardian Telecom Ltd. brands:

Rugged Telephony, paging, emergency communication for harsh environments, extreme elements, critical infrastructure, and safety-critical and mission-critical applications call for rugged and reliable solutions. Engineered from the ground up to work reliably and last in the roughest weather, toughest applications and most extreme environments.

guardiantelecom.com

Alarm monitoring for critical infrastructure in harsh environments through telephone line or cellular lines. Alarms will be broadcast in real-time to a designated telephone(s) through voice message or by text or email or paging system.

barnettprotalk.com

Wireless communications equipment manufacturer of high quality, industrial-strength wireless phone products, dedicated to designing products that withstand tortuous environments and climates while working reliably and consistently. A premier supplier of wireless phone products.

teletics.com

TiniFiber® Micro Armor Fiber™ Optic Cable – an armored fiber optic cable solution with the industry’s smallest outer diameter (OD), highly durable, flexible and adaptable to deliver seamless, sustainable end-to-end value. Next-generation and future-proof it is also 65% smaller and 75% lighter in weight than the former industry standard aluminum interlock armour (AIA).

Integrity & proven results.
