**Guardian Telecom Ltd.** is known as a world leader in building rugged, safe, reliable telecommunication devices and solutions used in harsh environments, extreme elements, critical infrastructure, and safety-critical and mission-critical applications worldwide.

**In Canada, Impact Technical Products, Inc is proud to represent three of Guardian Telecom Ltd. brands:**

**Rugged Telephony, paging, emergency communication for harsh environments, extreme elements, critical infrastructure, and safety-critical and mission-critical applications** call for rugged and reliable solutions. Engineered from the ground up to work reliably and last in the roughest weather, toughest applications and most extreme environments.

[guardiantelecom.com](http://guardiantelecom.com)

**Alarm monitoring for critical infrastructure in harsh environments** through telephone line or cellular lines. Alarms will be broadcast in real-time to a designated telephone(s) through voice message or by text or email or paging system.

[barnettprotalk.com](http://barnettprotalk.com)

**Wireless communications** equipment manufacturer of high quality, industrial-strength wireless phone products, dedicated to designing products that withstand tortuous environments and climates while working reliably and consistently. A premier supplier of wireless phone products.

[teletics.com](http://teletics.com)

**Siemens RUGGEDCOM specializes in rugged ethernet switches designed to operate reliably in industrially harsh environments.** It meets and exceeds recognized industry standards for ruggedness and communications performance and is ideally suited for mission critical real-time control applications at -40 C to +85 C.

[siemens.com/ruggedcom](http://siemens.com/ruggedcom)

**TiniFiber® Micro Armor Fiber™ Optic Cable – an armored fiber optic cable solution** with the industry's smallest outer diameter (OD), highly durable, flexible and adaptable to deliver seamless, sustainable end-to-end value. Next-generation and future-proof it is also 65% smaller and 75% lighter in weight than the former industry standard aluminum interlock armour (AIA).
