

Impact Technical Products is a “boutique” sales agency dedicated to representing manufacturers that have value added, technology based products. By focusing our sales effort on the “end user” customer and working with strategic channel partners, Impact delivers solutions to the customer and a high level representation with a personalized customer care approach.

Product Line Card

Integrity & proven results.

ProTalk from Barnett Engineering, is a Canadian company based in Calgary. They manufacture harsh rated monitoring and reporting units for critical infrastructure and process control. Alarms can be announced over any combination of radio, telephone or public address system. The two-way radio port provides voice announcements, including paging, to private radio and PA systems.

Alarm messages or announcements through voice calls, SMS text and Email can be sent over the telephone line or over the built-in LTE cellular modem.
